

Agenda for COST E43 Task Force Meeting in Eberswalde, Germany, 16-19 April, 2007

Host

The Institute for Forest Ecology and Forest Assessment of the Federal Research Centre for Forestry and Forest Products in Eberswalde, Germany. Contact person: Karsten Dunger.

Objectives

To prepare for the next joint MC and WG meeting in Helsinki, June 2007, by elaborating case examples on building bridges and performing sensitivity analyses within the area of LULUCF reporting for a number of case study countries. The specific objectives are:

- To compile results from a small questionnaire addressing to what extent European countries can report according to selected reference definitions.
- To develop country-specific bridges for selected case study countries in order to be able to report according to selected reference definitions. The case study countries are Finland, Germany, Italy, and Sweden.
- To perform initial sensitivity analyses for the selected case study countries.
- To make preparations for a potential scientific article based on the results of the work conducted during the Task Force meeting.
