(WG2 meeting followed the plenary meeting of the COST E43 action)

Thursday 5 June 2008- Issues of the WG2 meeting

- 1) Presentation of WG2 working agenda – Göran Stahl: presented the WG2 objectives, reporting requirements, including AFD and emissions reporting, achievements of the WG2 until now, pointing out several specific studies and papers completed. Also examples of completed reference definitions and methods of bridge building were presented.
- 2) Presentation of the MASCAREF project result
 - Emil Cienciala – General introduction
 - Alexandra Freudenschuss – BF and BEFs used in NFIs
 - Antoine Colin – Role of European NFIs in GHG reporting

Friday 6 June 2008 - Issues of the WG2 meeting

- 3) Uncertainty workshop – lead by Gerard Kändler
 - Uncertainty assessment of GHG emissions from Forest based on NFI – Gerard Kändler
 - Uncertainty estimation (GPG 2003 treatment and usage of NFI data)- Göran Stahl
 - Paper IV presentation – Susanna Barreiro on behalf of Hans Petersson
- 4) Introduction to articles on interpolation and bridges - Erkki Tomppo
- 5) Work in BOGs 11:30-15:30 – distribution according the four articles plus remaining group finalizing the reference definition material.
- 6) BOG reports in WG2 plenary
- 7) WG2 internal evaluation of our work – what was good and what was not so good?

WG2 in the final plenary session requested a support for Task Force to be considered (7-9th October 2008) in connection with October meeting of the COST E43 editorial board, once funds would be available.
